

## A Celebration of Suffolk Geology: Editor DR R Dixon

### Contents

Foreword: The Earl of Cranbrook

GeoSuffolk – a decade of achievement. Compiled by Roger Dixon and Caroline and Bob Markham

### A Foundation

Geodiversity, Suffolk: an introductory excursion. Tim D Holt-Wilson

Suffolk geology: my first impressions. Ann Ainsworth

Suffolk Geology for Children Susan Brown

The U3A in Suffolk. Derek Barbanell

A history of geoconservation in Suffolk. Jonathan G Larwood

From Pipe Rock to the Pleistocene: a working journey through the geological record. Jeff Redgrave

Life, the Universe and Sutton Knoll. Barry Hall

Remarks on Natural History in East Anglia and the Quaternary. Richard West

Prehistoric Attitudes: A Suffolk Pedigree. Steven Plunkett

### The Stratigraphy

Brief description of Silurian rock from the Stutton borehole. Roger Dixon

The Chalk of Suffolk Mark A. Woods, Rory N. Mortimore and Christopher J. Wood

Field Guide to the Harwich Formation and Pleistocene Deposits of Harkstead Shore. Bill George

Why look again at the Coralline Crag? Mainly a Molluscan Story. P.E.Long and J.A.Zalasiewicz

Bryozoans from the Pliocene Coralline Crag of Suffolk: a brief review Paul D Taylor & Anna B. Taylor

The Red, Norwich and Wroxham Crags of Northern Suffolk. Richard Hamblin and James Rose

An Arctic ostracod fauna from the Pre-Ludhamian (late Pliocene to early Pleistocene) Red Crag Formation at Buckanay Farm, Suffolk, England. Adrian Wood

The Chicken Pit at Sutton Knoll: Boulder Bed excavation, Preliminary Report. Ann Ainsworth and John Hudson

Biotic interaction in the Suffolk Crags. Elizabeth M Harper

Burrowing into the past: history of research on the Norwich and Weybourne Crag voles (Arvicolidae, Rodentia). David F Mayhew

The Norwich Crag geology of the country around Westleton. Howard B Mottram

Determining *Macoma* species from the Crag: *balthica*, *calcareo*, *obliqua*, or anyone for *praetenuis*? Peter Norton

Preglacial rivers (Thames, Bytham), palaeosols, and early humans in Suffolk, UK. James Rose, Richard Hamblin and Peter Allen.

The genesis and significance of the Middle Pleistocene glacial meltwater and associated deposits in East Anglia. P.L.Gibbard and P. van der Vegt

Deducing Glacier Behaviour in Suffolk. Peter Allen

Scandinavian Indicators in East Anglia's "pre-Glacial" Succession Peter G. Hoare

The Palaeolithic Archaeological Record of Suffolk Simon G Lewis

### Some Geomorphology

Gulls of East Suffolk. Caroline Markham

The Orford Ness Shingle – Geomorphology and Geology. Christopher Green and Duncan McGregor

The Havergate Island Hydrograph Anomaly. S J Linford-Wood

### Florilegium

A model of the Ipswich urban area: geological mapping in 3D. Steve Mathers

Two Road Embankments over Peat in East Suffolk. Peter J Cearns and Michael G Burch

The UEA series of research boreholes (1968-1970) in the pre-glacial 'Pleistocene' of East Anglia. Alan Lord

A Short History of Geology at Ipswich Museum. Bob Markham

Suffolk's First Earth Scientists: Arthur Young (1741-1820) and Richard Cowling Taylor (1789-1851). Peter Banham

GeoSuffolk and building stone trails Roger Dixon

Suffolk Field Trips: how to get there, what to eat, who to eat it with and where! Bob Markham

The Pliocene Deli – a culinary trawl through the Red Crag. Roger Dixon

The GeoSuffolk Archive Collection compiled by Roger Dixon

The GeoSuffolk 10th Anniversary Volume Sponsors
